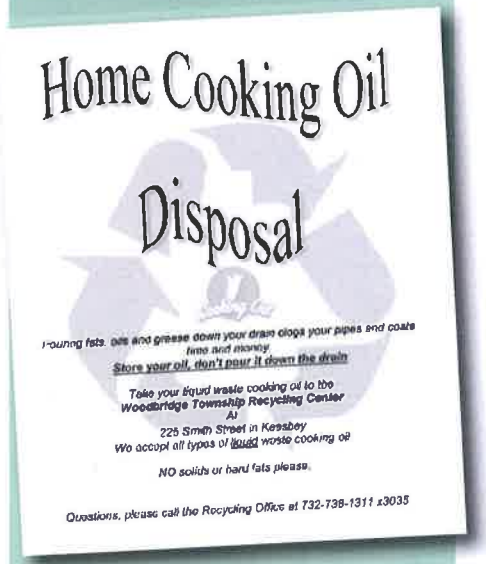
Woodbridge Now Recycles Cooking Oil

Township residents can drop off liquid waste cooking oil (no solids or hard fats) at the Public Works Recycling & Convenience Center (225 Smith Street, Keasbey). The waste oil will be cleaned and transformed into American-made biodiesel fuel.

Benefit of Recycling Waste Cooking Oil:

- Prevent damage to household plumbing and reduce blockages in municipal sewer system.
- Reduces cost of landfill disposal.
- Eliminates risk of municipal water contamination.
- Support renewable energy.



Spring Clean Up is Coming

Free Bulk Waste Pick-Up & Garage Sale Weekends Return in April

It's time to clean-out the garage, basement, or spare room! The annual Spring Clean Up program with permit-free Saturday/Sunday garage sale(s) followed by free curb-side bulk waste pick-up returns in April. Anything you don't sell or give away at your garage sale, along with the bulk items you put at the curb, will be picked up free the following week. Place discarded items at curbside after 4 p.m. on Sunday after the neighborhood garage sale weekend, and then the bulk waste will be collected the following week. And, once again, residents participating in the garage sale weekend can advertise their yard sale on the Township web page (**www.twp.woodbridge.nj.us**) free of charge – so visit our website and advertise your yard sale or just find out who is having the best garage sale in town.

IT'S MAY.....
THINK GRASSCYCLING WHEN MOWING

5 Tips for a Great Looking Lawn!

1. Any lawn mower will work, but a mulching mower will produce the best results.
2. Mow high. Remove only the top 1/3 of the grass blade. You may mow a little more frequently, but your overall lawn care time will decrease.
3. Keep your mower blade sharp. Dull blades tear the grass. This produces ragged, brown edges that invite lawn disease.
4. Water in the morning. Water less frequently but to a depth of one inch. Shallow watering leaves your lawn susceptible to drought stress, disease and insect problems.
5. Don't over fertilize. Grasscycled lawns need fertilizer only once or twice a year.

Grasscycling Saves....

Time. Experts say we spend as much as 35% of our mowing time getting rid of the clippings: emptying the mower bag, raking, filling the lawn waste bags and dragging them to the curb.

Money. You need to water and fertilize your lawn far less frequently because the clippings conserve moisture and act as a natural fertilizer: they add almost two pounds of valuable nitrogen to every 1,000 square feet of lawn. You will also buy fewer lawn waste bags.

Town's Money. An average lawn creates about one ton of clippings each year. Municipal costs for the collection and disposal of grass clippings run about $100 per ton.

Other Uses for Grass Clippings.

Use them as mulch. Put clippings on the soil around plantings to reduce weed growth, moderate soil temperature and conserve moisture.

Mix them into garden soil. They add valuable nutrients and organic matter.

Add them to your compost pile. Make sure the compost pile consists of 1/3 grass clippings or less, or it may emit odors.

NOTE: For all of these uses, avoid grass that has recently been treated with a herbicide. Wait until the second mowing after treatment to use these clippings.

IT'S JUNE.....

ONLY RAIN SHOULD GO DOWN THE STORM DRAIN!
HOW TO KEEP OUR WATERWAYS CLEAN!

Do you know where the water from your streets and gutters go?

That water goes down the storm drain, out to local waterways & into the ocean.

Stormwater Runoff Never Gets Filtered or Treated.

SO.....litter, leaves, grass, motor oil and any other debris that is washed, blown or dumped onto the roadway, can ultimately end up in the ocean.

Stormwater can become a "transportation system" for pollutants.

What Can I Do?

1. Keep your nearest storm drain clean of debris and litter
2. Never dump anything down a storm drain
3. Use pesticides only when necessary
4. Use fertilizers sparingly
5. Do not blow grass clippings or leaves into the street
6. Pick up pet waste and dispose properly
7. Sweep up yard debris rather than hosing down paved areas

REMEMBER...
Lots of little changes will make the biggest difference!

It's not too late to enroll the kids in one of our fantastic summer camps!

IT'S OCTOBER.....

IT'S LEAF TIME

Put your lawn mower to good use this fall and "just mulch your leaves and go"!

Use your lawn mower to mulch your leaves where they fall.
You can then leave them on your lawn, add them to your garden/flower beds or put them in your compost pile
You'll find it so much easier than raking, bagging or blowing the leaves.
It will return nutrients to the soil, improve the moisture content, and feed all the good organisms in your soil.

BUT if you must bag them-

And remember starting October 1st leaf bags will be available at the Public Works Complex located at 225 Smith Street Keasbey.

Only leaves in biodegradable paper bags will be collected. No plastic bags!

Leaves placed in the street can be dangerous
They can clog storm drains and cause flooding
Reduce the width of roads, creating hazardous driving conditions

If you are going to schedule a loose leaf pick up, payment must be received and a pick up date given, before any leaves may be placed at the curb.
Please contact the Road Dept. at 732-738-1311 x 3044 for payment and pick up information. Failure to comply may result in fines.
