April 13, 2011

Dear Community Leader,

The Environmental Commission and the Office of Sustainability cordially invite you (or a staff representative) to the first community engagement forum of the Newark Sustainability Action Plan on **Wednesday, April 27th at 6:30 pm**, Municipal Council Chambers.

This special Environmental Commission meeting will be the first of several community engagement events where Newarkers will have the opportunity to be part of the Sustainability Action Planning process. There will be working group meetings that examine options, share information and make recommendations to our Sustainability Action Plan consultants that address the health, environmental impacts and economic concerns of all Newark residents.

One goal of the Plan is to create a living document that accurately reflects our City's environmental and economic challenges and creates action-ready plans for us to move forward as a Sustainable City.

We understand that this community engagement process is a priority of the Municipal Council, and we ask for your assistance in informing your constituents of this important event. We would like to ensure that each ward is well represented and involved in the planning process so that the Plan addresses both the Municipal Council's priorities and the needs of the community.

Thank you and we are looking forward to your continued support.

Kim Gaddy
Environmental Commission Chair
