Health and Human Services, My Department, specifically my Environmental Health Division will be do the enforcement of the Ordinance. No other Departments are involved in the enforcement process. All Departments were provided with a copy of the Ordinance and I have scheduled a meeting with my staff in the next two weeks to go over the enforcement policy, the procedures to be followed, and the education process for the public. It will closely follow the enforcement strategies in place at the State Department of Health for the Smoke Free Air Act.

James A. Brownlee, MPH

Director/Health Officer

Department of Health and Human Services

319 East State Street

Trenton, NJ 08608
